

CLAIMS

1. A wraparound garment comprising:
a rectangular body section having at least four edges;
a pair of adjustable shoulder straps located on horizontally opposite corners of the length dimension;
wherein said pair of adjustable shoulder straps support and secure the wraparound garment upon a torso of a wearer.
2. A wraparound garment comprising:
a rectangular body section having at least four edges;
a pair of adjustable shoulder straps located on horizontally opposite corners of the length dimension;
a pair of openings formed by the attachment of the adjustable shoulder straps to said rectangular body section;
wherein a wearer inserts an arm into one opening, wraps said rectangular body section completely around the torso, inserts the opposite arm into the second opening, and adjusts the shoulder straps.
3. The wraparound garment of claim 1 or 2, further comprising fringe located on at least one edge of said rectangular body section.
4. The wraparound garment of claim 1 or 2, further comprising ornamental appliques on said rectangular body section.
5. The wraparound garment of claim 1 or 2, further comprising a slit in the bottom center of said rectangular body section.
6. The wraparound garment of claim 1 or 2, further comprising ornamental appliques on said adjustable straps.
7. The wraparound garment of claim 1 or 2, wherein the pair of adjustable shoulder straps are removable.

8. The wraparound garment of claim 1 or 2, further comprising fastening means to be positioned upon said rectangular body section.
9. The wraparound garment of claim 8, wherein the fastening means are selected from the group consisting of Velcro, buttons, snaps, ties, and hook-and-eye.
10. The wraparound garment of claim 1 or 2, wherein the rectangular body section varies in length to accommodate different size torsos.
11. The wraparound garment of claim 1 or 2, wherein the rectangular body section varies in width to accommodate different size torsos.
12. The wraparound garment of claim 1 or 2, wherein the rectangular body section varies in width for different dress-lengths.
13. The wraparound garment of claim 12, wherein the different dress-lengths are selected from the group consisting of mini, above the knee, below the knee, and ankle lengths.
14. The wraparound garment of claim 1 or 2, wherein at least one edge has a straight finish.
15. The wraparound garment of claim 1 or 2, wherein at least one edge has a scalloped finish.
